Live product portfolio — commerce, jobs ingest, courses, public APIs
<https://adolfo-nine.vercel.app>

Erick Vargas Ramos

Senior Frontend / Fullstack · Madrid
Next.js · TypeScript · React · Postgres

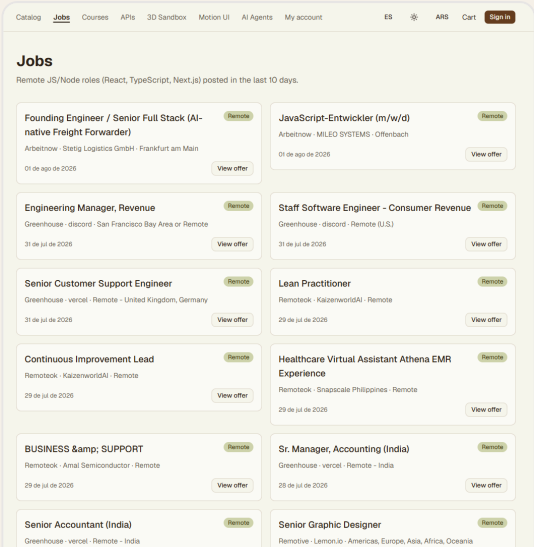

Production app on Vercel + Neon: Auth.js, catalog/cart, remote jobs ingest (Remotive / Greenhouse / etc.), learning modules with progress, and live public API probes (metrics OAuth-like demo, catalog, demo upstreams). Built as a shippable product, not a static mock.

- Next.js 16
- TypeScript
- React 19
- Prisma / Postgres
- Auth.js
- next-intl
- Vitest / Playwright
- Vercel

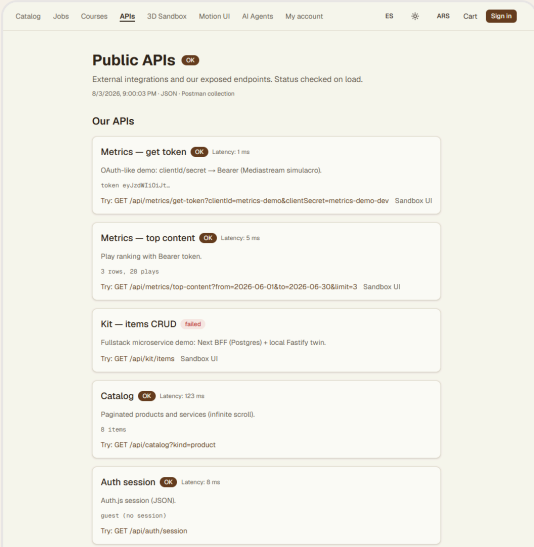

Courses

In-app modules: fullstack kit, CWV, AI path, FP certificates.

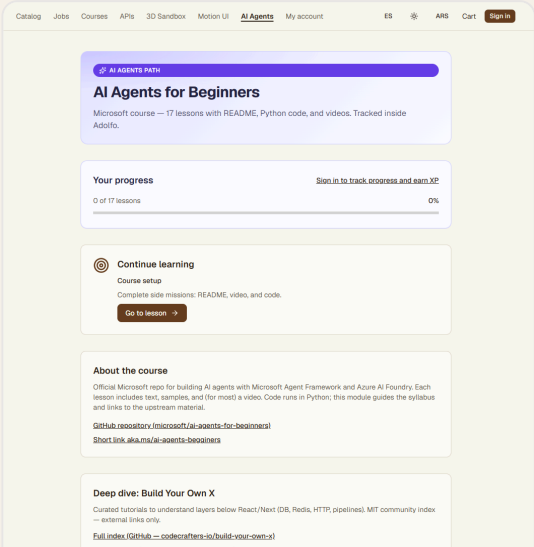

Jobs

Remote JS/Node ingest — filterable board with live sources.

Public APIs

Live health + latency for own endpoints and upstreams.

AI Agents

Microsoft 17-lesson path with XP/progress inside the app.

Also: catalog/checkout · 3D sandbox · Motion UI · Postman collection
